ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

RANGE ROVER VELAR

Range Rover Velar is a revolutionary member of the Range Rover family, sitting between the Range Rover Evoque and the Range Rover Sport. Taking glamour, modernity and elegance to an exceptional new level, it combines an emotionally charged DNA and unquestionable design pedigree.

Vehicle shown is Range Rover Velar Auric Edition in Charente Grey with optional features fitted (market dependent). Vehicles shown are from the Land Rover global range. Specifications, options and availability will vary between markets and should be verified with your nearest Land Rover Retailer.

THE RANGE ROVER THAT CHANGES EVERYTHING

Range Rover Velar's interior is a calm sanctuary, created through elegant simplicity and a visually reductive approach, with design-enabled technologies like the Pivi infotainment system. All-LED lights and deployable flush door handles on the exterior complete a truly compelling design and, of course, it's a Land Rover with unrivalled capability in all conditions.

PERSONALISATION

EXTERIOR

Sophisticated. Intelligent. Advanced. Refined power and effortless elegance combine with exquisite effect in this outstanding example of contemporary automotive design. Range Rover Velar is beautifully balanced, with optimised proportions. Its proud Range Rover lineage is instantly recognisable, from the formal, powerful volumes of the front end, through a flowing, continuous waistline, culminating in a taut and elegantly tapered rear.

DESIGN

SAFETY

VERSATILITY

PERSONALISATION

The sleek volumes of the lower body, bear witness to our obsession with the finest detail. Optional 22" wheels* optimise the vehicle's stunning proportions, further emphasising Range Rover Velar's spectacular on-road presence. At the rear, the vehicle's design is distinguished by quad tail light signature elements within a full-width graphic incorporating the iconic Range Rover script, seamlessly harmonising the vehicle's lines to stunning effect.

*Engine and model dependent.

PERSONALISATION

Range Rover Velar bears testament to our reductive design philosophy. With such details as flawlessly integrated flush deployable door handles, you'll find this is evident in even the finest details.

INTERIOR

Range Rover Velar's cabin exudes elegant simplicity. Decide how best to accentuate it with a selection of beautiful materials, including Windsor leather* with a signature Cut Diamond pattern. Enhancing the feeling of calm and overall driving experience, two seamlessly integrated 10" Touchscreens give easy access to our advanced Pivi technology. Here you can also configure optional Premium Cabin Lighting, choosing from 10 colours to illuminate the interior.

Or you can simply flood it with sunlight, through an optional sliding panoramic or fixed panoramic roof. Everything has been designed and crafted to help you and your passengers arrive in total comfort. Just adjust the twin sliding armrests that operate independently, sit back, and relax.

Interior shown is R-Dynamic HSE with Light Oyster/Ebony interior in Windsor leather (market dependent).

PERSONALISATION

CABIN AIR PURIFICATION PLUS*

By activating the PURIFY button in your vehicle, our specially designed filter will attract and capture fine particulates such as PM2.5, and airborne allergens such as dust and pollen from the outside air. The system cleanses the air in the cabin environment, reducing the vehicle occupants' exposure to the pollutants. The nanoe™ ionisation technology enhances the wellbeing of both driver and passengers alike. It does so by ionising particles in the air, making them attract to and neutralise the air contaminants.

Additionally, CO₂ sensing will automatically refresh cabin air to prevent high levels of carbon dioxide. CO₂ sensing monitors the concentration of carbon dioxide in the cabin which can impact driver alertness, recirculating the air when needed. The Air Purge feature allows you to remotely cleanse the cabin air environment with the climate preconditioning function ahead of your journey.

*Optional feature.

ENGINES

[BUILD YOUR OWN](#)

From power and sheer driving pleasure to fuel economy and refinement, there's an engine for you. Our entire range features Stop/Start technology¹, plus there's a selection of petrol and diesel engines that are equipped with Mild Hybrid (MHEV)¹ technology. This is the next generation of Stop/Start, shutting down the engine whilst decelerating. It also harvests kinetic energy lost at that time to redeploy as engine assistance, ensuring a more efficient drive. Our 4-cylinder engines, underpinned by Ingenium technology, provide inherently low levels of vibration and smooth day-to-day performance.

Our Plug-in Hybrid Electric Vehicle (PHEV)¹ delivers exceptional performance and drive with fewer emissions. The P400e uses the combination of an advanced 2.0l 300PS Si4 Ingenium Petrol engine with a high-capacity 105kW electric motor. It can be operated in two ways; the default Parallel Hybrid or the driver-selectable EV Mode².

¹Market dependent. ²Parallel Hybrid Mode will be automatically re-engaged should the driver require more power and torque than is available, or the battery charge drops to an insufficient level to maintain progress.

Vehicle shown is R-Dynamic HSE in Fuji White with optional features fitted (market dependent).

PERSONALISATION

8-SPEED AUTOMATIC TRANSMISSION

All diesel and petrol engines in Range Rover Velar are coupled with an 8-speed Automatic Transmission. With eight closely spaced ratios, the transmission ensures that you are always in the optimum gear, maximising fuel efficiency and acceleration. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style. Controls include steering wheel-mounted gearshift paddles, enabling you to take control of gear changes manually.

MILD HYBRID ELECTRIC VEHICLE (MHEV)

MHEV¹ is a mild hybrid system that harvests and stores energy normally lost during vehicle deceleration and intelligently redeploys it to assist the engine to maximise efficiency. It incorporates an enhanced Stop/Start system that enables the engine to shut down while the vehicle decelerates.

PLUG-IN HYBRID ELECTRIC VEHICLE (PHEV)

The PHEV¹ powertrain features a 2.0 litre, 4 cylinder, 300PS (P300) configuration and a new 105kW eMotor. This can supply its power in parallel with the engine or drive the vehicle in the manually selectable Electric Vehicle (EV) Mode². The 14kWh battery delivers an all-electric range from a full charge which is capable of managing most city commutes³. The powertrain delivers a superb on-road drive coupled with a confident and sure-footed one off-road. So wherever you want to go and whichever mode you choose, PHEV delivers.

¹Market dependent. ²Parallel Hybrid Mode will be automatically re-engaged should the driver require more power and torque than is available, or the battery charge drops to an insufficient level to maintain progress. ³Please refer to the accompanying Technical Specification for full details on driveline, engine performance and fuel economy. Note that CO₂ and fuel economy figures can vary according to wheel fitment, and the lowest figures may not be achievable with the standard wheels.

PERSONALISATION

REFINED PERFORMANCE

Range Rover Velar's drive is supremely confident, connected and effortlessly delivered thanks to a carefully engineered suite of technologies.

ALL WHEEL DRIVE WITH INTELLIGENT DRIVELINE DYNAMICS

Range Rover Velar's All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD), fitted as standard, delivers both outstanding on-road performance and the full off-road capability expected of a Range Rover. Working together, AWD with IDD continually optimises the engine torque distribution to the front and rear wheels to ensure maximum traction and fuel efficiency in all road and weather conditions. It's predictive as well as reactive, so the system helps prevent losing traction as well as working seamlessly to regain it, delivering comfort and composure no matter the terrain.

DESIGN

PERFORMANCE

CAPABILITY

TECHNOLOGY

SAFETY

VERSATILITY

PERSONALISATION

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics* system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. To do this, the system constantly analyses acceleration, steering, throttle and brake pedal activity. The electronically controlled dampers adjust to optimise the suspension settings and provide the optimum balance between comfort, refinement and agility at all times.

CONFIGURABLE DYNAMICS

To enhance either refinement and comfort or the vehicle's performance, the optional Configurable Dynamics function allows you to configure Range Rover Velar's throttle mapping, gearbox shift points, steering settings and suspension to suit your driving needs.

TORQUE VECTORING BY BRAKING

Torque Vectoring by Braking delivers controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels.

*Linked feature.

DESIGN

PERFORMANCE

CAPABILITY

TECHNOLOGY

SAFETY

VERSATILITY

PERSONALISATION

CAPABILITY IN ALL CONDITIONS

Range Rover Velar offers new levels of style, with class-leading all-terrain capability as standard. Land Rover's patented Hill Descent Control (HDC) assists the driver with controlled descents of difficult slopes by applying braking separately to each wheel. Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline. It also utilises Gradient Release Control (GRC), preventing the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

ELECTRONIC AIR SUSPENSION¹

This optional system provides composure and poise through exceptional wheel control, keeping all four wheels on the ground on very uneven surfaces. Added to which, it makes loading heavy objects into the boot easier as you can alter the vehicle's height by +/- 50mm to suit your needs. These functions can be operated via the 10" Touchscreen, from the key fob or button² in the loadspace area. The Speed Lowering system also uses the Electronic Air Suspension to reduce aerodynamic drag and fuel consumption at 105 km/h cruising speed by lowering the vehicle by 10mm.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC)* is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, ice, snow and dirt roads. Operating like a cruise control system, it functions between 3,5 km/h and 30 km/h, enabling you to maintain full concentration on steering and finding a path through obstacles.

DYNAMIC HANDLING PACK

Land Rover has always been synonymous with off-road capability. Whether tackling mud, wet grass, scree, sand or snow, our vehicles have a suite of technologies to help you deal with the trickiest terrains with the utmost confidence. The optional Dynamic Handling Pack features a truly comprehensive selection. All Terrain Progress Control, Terrain Response 2 with Dynamic Program, Adaptive Dynamics, Configurable Dynamics and Electronic Air Suspension are all included. No matter where you drive, composure is customary.

*Optional feature.

TERRAIN RESPONSE WITH DYNAMIC PROGRAM

When you manually select Land Rover's unique standard Terrain Response system, it sets the vehicle up optimally to match the demands of the terrain, by adapting the responses of the vehicle's engine, gearbox, differentials and chassis systems. There are five Terrain Response settings: Comfort, Grass/Gravel/Snow, Mud and Ruts, Sand and Eco.

TERRAIN RESPONSE 2 WITH DYNAMIC PROGRAM

Terrain Response 2 with Dynamic Program* is an option that takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting. You can manually override the system should you wish. This function works seamlessly through Pivi's lower touchscreen.

*Linked feature.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. PREMIUM FUNCTIONALITY

With Land Rover Remote¹ as standard, your Range Rover Velar is always in the palm of your hand. Preset your navigation, confirm your vehicle's location, check fuel levels and set the interior temperature - all before you've opened the car door. Along the way, intelligent re-routing can find you the best path to take, as well as updating parking availability, fuel price comparisons, café locations and traffic hotspots. Plus, optional Head-up Display² is available, which projects key information onto the windscreen in your line of sight, so you can sit back and just focus on the road ahead.

¹Remote contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store. ²Requires Solar attenuating glass in some markets. Navigation directions on the windscreen only appear when Pivi Pro is fitted to the vehicle.

In-car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. ENTERTAINMENT FOR ALL

We know how important it is for you to stay connected. With Pivi Pro's Online Pack with Data Plan¹, you can enjoy your favourite music streamed from multiple services, including Spotify, Tunes and Deezer, right through your Range Rover Velar's speakers. As passengers, you can all take full advantage of the optional Wi-Fi Enabled with Data Plan², streaming entertainment with up to 20GB of data per month. Whether that's browsing your socials, playing online games, or immersing yourselves in a movie.

¹Fair use policy may apply. Standard 1 year subscription, which can be extended after the initial term advised by your Land Rover Retailer. ²Fair use policy applies. After 20GB of data is used within a month, data speeds and functionality on vehicle may reduce for the rest of the month. For details of the Fair Usage Policy associated with this feature, please refer to the InControl Pivi Pro Terms at landrover.com/pivi-pro-terms. Playback time is dependent on streaming provider and the definition of the video content. HD video will significantly increase data usage.

In-car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Mobile network connectivity cannot be guaranteed in all locations. WITH MERIDIAN™, YOU'LL FEEL MORE

Meridian's™ approach to in-car audio is all about managing the sound stage; intensifying the levels of depth, clarity and realism of the music, by using a combination of sophisticated acoustic technology and strategically positioned speakers. Wherever you sit in the vehicle, you'll get the same concert quality sound. Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It's intimate, dramatic and very atmospheric - whether you're off-road or stuck in rush-hour traffic.

EXPLORE MERIDIAN

Meridian is a registered trademark of Meridian Audio Ltd. Trifield and the three fields device is a trademark of Trifield Productions Ltd.

Features and their availability may differ by vehicle specification and market.

Visuals aim to represent the perceived placement of the musicians based on an occupant seated on the right side of the vehicle.

8 SPEAKERS

1. SOUND SYSTEM Gives new levels of realism to your favourite music with a combination of speakers, 6-channel amplifier, Audio Equalisation and Dynamic Volume Control.

11 SPEAKERS 1 SUBWOOFER 400W AMPLIFIER POWER

2. MERIDIAN™ SOUND SYSTEM Brings detail and clarity to everyone in the car with strategically arranged speakers and a dual-channel subwoofer to deliver a full, sophisticated sound.

16 SPEAKERS 1 SUBWOOFER 750W AMPLIFIER POWER

3. MERIDIAN™ 3D SURROUND SOUND SYSTEM Enjoy an engaging, authentic concert hall experience as you're enveloped in the fullness and clarity of side, front and rear speakers seamlessly integrated using 3D Trifield™ technology.

22 SPEAKERS 1 SUBWOOFER 1300W POWER AMPLIFIER

4. MERIDIAN™ SIGNATURE SOUND SYSTEM Feel and appreciate music in a new dimension, with additional speakers carefully positioned around the cabin and using Meridian's Trifield 3D technology to create a truly unique 'live' sound experience.

DRIVER ASSISTANCE STANDARD FEATURES

Range Rover Velar has been built using our most advanced features to date. All of which help make getting around town and parking easier, and driving on motorways that bit more enjoyable.

Emergency Braking can help prevent collisions with other vehicles, pedestrians or cycles. It displays a warning in the event of an imminent collision, and automatically applies the brakes if no action is taken.

Front and Rear Parking Aid makes manoeuvring even easier. Sensors located in the front and rear bumpers are activated manually, or when reverse is selected. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.

Cruise Control and Speed Limiter make long distance driving easier. Both features help to maintain the speed of the vehicle, reducing the need to continually use the accelerator pedal.

Lane Keep Assist detects when your vehicle is unintentionally drifting out of lane and will apply a corrective torque to the steering wheel to encourage you to guide your vehicle back.

Rear Camera provides improved visibility when reversing. Static lines representing the vehicle's outer perimeter and your predicted path, are superimposed on the rear-view image displayed on your Touchscreen.

Driver Condition Monitor detects if you're starting to feel drowsy by monitoring steering inputs, brake and throttle pedal activity to give you an early warning when you need to take a break.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

OPTIONAL FEATURES

BLIND SPOT ASSIST PACK*

To us, the safety of you and your passengers will always be paramount. We understand that some potential collisions can be harder to detect. Our Blind Spot Assist Pack helps you to identify and safely respond to these incidents, so you can feel more confident on any drive.

Blind Spot Assist** helps you to change lanes more safely, illuminating a small warning light in the wing mirror if your vehicle detects another vehicle in your blind spot. Additional steering correction encourages you to guide your vehicle away if a potential collision is detected.

Rear Traffic Monitor warns you of vehicles, pedestrians or other hazards approaching from either side. Particularly useful when reversing out of a parking bay.

*Linked feature. Model dependent. **Blind Spot Assist can help prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, additional steering correction encourages you to guide your vehicle away if a potential collision is detected.

DRIVER ASSIST PACK*

The Driver Assist Pack includes a range of features designed to make driving safer and easier. It includes all the features found in the Blind Spot Assist Pack, plus:

Adaptive Cruise Control with Steering Assist helps make motorway driving and heavy traffic situations even easier and more comfortable. It achieves this by gently assisting with steering, acceleration and braking to centre the vehicle in-lane and maintain a set distance from vehicles ahead. You'll feel it working with you as you keep your hands on the wheel and monitor your surroundings.

Rear Collision Monitor can detect if a vehicle approaching from behind is not slowing down and presents a potential collision threat. The system will then attempt to alert the driver to brake by automatically flashing the hazard lights.

DESIGN

CAPABILITY

TECHNOLOGY

SAFETY

VERSATILITY

PERSONALISATION

PARK ASSIST PACK*

Trying to manoeuvre into those tight city spaces can be a real challenge. Luckily, our optional Park Assist Pack is here to help you to enjoy hassle-free parking, every time.

Park Assist makes parking easier than ever before by automatically detecting available parking spaces and offering to park for you. At your command, your vehicle will complete the full parking manoeuvre automatically while you simply sit back and keep an eye on the surroundings.

3D Surround Camera helps you see more. 3D exterior perspectives alongside a 360° overhead view make manoeuvring easier, while off-road views including the innovative ClearSight Ground View provide you with confidence when scaling various terrains.

*Linked feature.

BRIGHTER LIGHTS, SAFER NIGHT-TIME DRIVING

Range Rover Velar features all-round exterior LED lighting as standard, the quality of light produced being closer to daylight conditions, so driving at night becomes less tiring. Optional Matrix LED headlights* enable Adaptive Driving Beam (ADB). By splitting the main beam into imperceptible vertical strips, the ADB maximises the number of high-beam sections around oncoming traffic for ultimate visibility, whilst casting a shadow in front of oncoming vehicles to prevent dazzling and for optimum safety.

The Adaptive Front Lighting System (AFS) optimises the lighting beam to suit a range of driving conditions of town, country, motorway and bad weather. Both systems work together to maximise visibility in all conditions.

*Model dependent.

DESIGN

PERFORMANCE

CAPABILITY

TECHNOLOGY

SAFETY

VERSATILITY

PERSONALISATION

Laser high beam technology* provides the ultimate headlight option, delivering five times higher luminance than standard LED lights. Becoming operational above 80 km/h and when no other external lights are detected, the system produces clear sight for over half a kilometre.

*Linked feature.

SUSTAINABLE BY DESIGN

Land Rover are committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. Range Rover Velar's development process has included a full life-cycle assessment and has been designed to be 85 percent recyclable/reusable and 95 percent recoverable at the end of the vehicle's life. Due to its advanced lightweight properties, Range Rover Velar's body structure is 82 percent aluminium.

Our innovative design incorporates up to 50 percent closed-loop recycled material from the manufacturing process of the body sheet, resulting in significant performance benefits and lower life-cycle CO₂ emissions. The closed-loop supply chain reclaims scrap aluminium from the stamping process, segregates it and re-melts it into the same grade quality sheet, thereby reducing the need for primary aluminium production, whilst maintaining the highest quality.

DESIGN

PERFORMANCE

CAPABILITY

TECHNOLOGY

SAFETY

VERSATILITY

PERSONALISATION

ADVANCED AERODYNAMICS

The streamlined design of our latest vehicle has been carefully optimised to make Range Rover Velar the most aerodynamic Range Rover ever. A rear spoiler with two integrated slots to direct airflow over the tailgate minimises rear windscreen soiling and provides a reduction in drag of 0,32 Cd. The option of aerodynamically designed and engineered wheels can also help reduce drag by 5 percent.

ENGINE MANUFACTURING CENTRE

Jaguar Land Rover's Engine Manufacturing Centre, where our engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK. Comprising no fewer than 22.600 individual panels, which are capable of providing up to 6,2MW (enough energy to power up to 1.600 homes), the panels generate more than 30 percent of the site's energy, reducing the plant's CO₂ footprint by over 2.400 tonnes per year.

SAFE AND SECURE

Designed for optimum safety, Range Rover Velar has been engineered to include a wealth of standard features not only to protect you and your passengers, but to actively help prevent accidents from happening. It's something we hope you never need to use, but in the event of theft, Secure Tracker helps to locate your vehicle. A theft alert will be sent to the Stolen Vehicle Tracking Centre and to you if someone attempts to move your vehicle illegally. Your vehicle's most recent location will be shared with local authorities. Optional Secure Tracker Pro takes this even further and integrates authentication technology into the key fob, preventing any non-authorized keys from gaining access to the vehicle.

Range Rover Velar's elevated Sports Command Driving Position provides enhanced visibility in all conditions. You can see more of the road and be easily seen by other road users; providing an enhanced feeling of safety and confidence. Legendary sure-footed All Wheel Drive (AWD) with Intelligent Driveline Dynamic (IDD) capability, as standard, helps you stay firmly planted on the road, whatever the weather or environment throws at you.

Secure Tracker and Secure Tracker Pro services require activation and must be in an area with network coverage. Includes service subscription for 12 months and can be upgraded to the warranty period or renewed after the initial term as advised by your Land Rover Retailer.

Range Rover Velar features the latest safety technologies as standard, including:

Dynamic Stability Control (DSC) monitors Range Rover Velar's dynamic behaviour, intervening to maximise vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface whilst braking and prevents wheels from locking - thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to minimise stopping distance, while still maintaining stability and the vehicle's ability to steer.

Electronic Traction Control (ETC) optimises traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

Cornering Brake Control (CBC) automatically varies the braking force to each wheel when the vehicle's brakes are applied around a corner and the limit of grip is reached. The system will prevent the vehicle's wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

Emergency Brake Assist understands when you apply the brakes quickly but without the necessary force to maximise stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time.

To help reduce the risk of a collision, the Emergency Stop Signal system automatically activates the hazard warning lights during emergency braking.

Emergency Braking - see page 24 for details.

ACCESSORIES

A range of stylish, tough and practical accessories is available, bringing you the opportunity to personalise your Range Rover Velar even further. These accessories can be purchased through your Land Rover Retailer and added at any stage during the vehicle's life - not just when it's new. Naturally, Land Rover Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle. For more information and to see the full list of accessories please visit accessories.landrover.com You can also include accessories when you configure your Range Rover Velar at landrover.com

Vehicle shown is R-Dynamic HSE in Silicon Silver with the following accessories: 22" Style 1051, 10 spoke wheels in Satin Technical Grey with contrast Diamond Turned finish. Cross bars (optional roof rails required) deployable side steps ski/snowboard holder and wheel mounted bike carrier.

FUNCTION AND TECHNOLOGY

Centre Armrest Cooler/Warmer Box

Food and drinks cooler and warmer that acts as a rear centre armrest. With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

iPhone® Connect and Charge Dock

The iPhone Connect and Charge Dock has been designed to allow visibility of the phone whilst charging, utilising the cup holder space in the centre console. When connected the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that the home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use.

Click and Go System

The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go Base fixes between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

iPhone® is a trademark of Apple Inc., registered in the US and other countries.

EXTERIOR STYLING

Deployable Side Steps*

These smart, practical steps make it easier to get in and out of the vehicle. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stow automatically when the door is closed. The side steps are sensitive to obstructions and automatic mode can be overridden to allow access to the roof when the doors are closed. The Deployable Side Steps are compatible with Front Mudflaps and feature a stainless steel finish with laser-etched Range Rover Velar branding.

Range Rover Lettering - Narvik Black

Replace the Silver Range Rover lettering and enhance the appearance of your Range Rover Velar with this alternative Narvik Black bonnet and tailgate lettering. Sold as a vehicle set.

Carbon Fibre Rear Spoiler

Sleek and dynamic Carbon Fibre Rear Spoiler for Range Rover Velar.

Carbon Fibre Mirror Covers

Stunning high grade Carbon Fibre Mirror Covers, with a High Gloss finish, provide a performance-inspired premium styling update.

Carbon Fibre Side Vents

High-grade Carbon Fibre side power vents with a High Gloss finish provide a performance-inspired styling upgrade.

*Engine dependent. Fitting of side tubes or side steps may affect the off-road capability of the vehicle.

PERSONALISATION

CARRYING

Tow Bar Mounted Bike Carrier

Tow Bar Mounted Bike Carrier available for two or three bikes. A quick-release design for ease of use and lockable for security. Maximum carrying capacity 51kg (on the three bike carrier).

Aqua Sports Carrier¹

Carries a sailboard, canoe or kayak. Includes lockable multi-purpose holder to carry a mast, oars or paddles. Tilts to facilitate easy loading/unloading. Features lockable straps and rubber supports to maintain optimum weight distribution whilst protecting the kayak and vehicle from scratches/scuffs. Maximum carrying capacity 45kg².

Ski/Snowboard Holder¹

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading and is also lockable for security. Maximum carrying capacity 35kg².

Luggage Carrier¹

Flexible rack system to facilitate roof carrying. Maximum carrying capacity 62kg².

Wheel Mounted Bike Carrier¹

Lockable bike carrier designed for holding a single bike up to 20kg.

Aqua Sports Carrier - Two kayaks¹

Carries two kayaks or canoes. Also suitable for transporting crafts such as small boats. Includes lockable multi-purpose holder to carry paddles. Tilts to facilitate easy loading/unloading. Maximum carrying capacity 45kg².

¹Roof rails and cross bars are required for all Land Rover roof-mounted accessories. Objects placed above the roof-mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. ²Maximum payload equals the load capacity of the roof-mounted accessory.

TOWING

A Detachable Tow Bar with a load capacity of 2.500kg* is available as an accessory. Alternatively, there is the option of an Electrically Deployable Tow Bar, stowed in the rear bumper, with a load capacity of 2.500kg*. Both allow you to use items such as bike carriers from the range of Land Rover Accessories, adding even more versatility to the vehicle. Everything has been designed and engineered for ease of use and adaptability, to fit perfectly with your lifestyle.

*Engine dependent.

PERSONALISATION

INTERIOR PROTECTION

Protective Seat Covers

Protects seats from wet, dirty clothes as well as general wear and tear. Simple to fit and easily wipeable. Includes headrest and armrest covers.

Rubber Mats - Ebony

Rubber footwell mats for front and second row occupants help provide protection from general dirt. Branded and with Bright accent Range Rover ingot and durable metal corner piece to the external edge.

Loadspace Rubber Mat

Land Rover branded waterproof rubber mat helps to protect the rear loadspace carpet from general dirt.

Loadspace Rubber Mat Extension*

This waterproof mat extension covers the back of the rear seats when they are folded down.

Loadspace Liner Tray

Semi-rigid waterproof Loadspace Liner Tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment.

Luggage Partition - Half Height

Designed to protect vehicle occupants against the displacement of luggage. Following initial retailer installation the luggage partition can be removed with appropriate fitting tool. Complies with ECE-17 regulation. Flexible option retains convenience provided by folding second row seats. Compatible with Loadspace Rubber Mat and Loadspace Liner Tray.

*Linked feature.

PET PRODUCTS

Pet Loadspace Protection Pack

Designed to provide protection and easy cleaning of the loadspace from wet and muddy paws. Combines the Quilted Loadspace Liner, Luggage Partition - Half Height and Spill Resistant Pet Bowl.

Pet Transportation Pack

Convenient option to provide a comfortable environment for transporting pets, which can be fitted or removed quickly as and when required. Combines the Foldable Pet Carrier, Spill Resistant Pet Bowl and Loadspace Rubber Mat.

Quilted Loadspace Liner

This tailored liner covers and protects all the carpeted areas of the loadspace including the floor, second row seat backs and loadspace side walls. Manufactured from a soft quilted fabric, with an integral rubber base and detachable bumper protector it is easy to wipe clean, making it ideal for owners who regularly carry dogs or other pets in the loadspace area of their vehicle. Compatible with Luggage Partition - Half Height. Not compatible with full size spare wheel.

DESIGN

SAFETY

VERSATILITY

PERSONALISATION

Pet Care and Access Pack

Taking the effort out of transporting pets, this option ensures everything required is to hand to transport pets in comfort. Combines the Half Height Luggage Partition, Quilted Loadspace Liner, Pet Access Ramp and Portable Rinse System.

Portable Rinse System

Designed to be used outside the vehicle, the Portable Rinse System provides a convenient solution for washing pets before loading or rinsing down other equipment from bikes to wetsuits. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment. Without the need for batteries or external power, the system utilises pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional stowage bag it can be secured to the loadspace 'D' loops during transit, making it ideal for owners who regularly carry dogs or other pets in the loadspace area of their vehicle.

THE RANGE ROVER COLLECTION

Our latest range of premium lifestyle accessories are crafted with the same design excellence, refinement, and attention to detail as our vehicles.

Range Rover Leather Tote Bag - Style, simplicity, sophistication. It all comes to the fore with this cross-grained Leather Tote Bag in Deep Garnet. Featuring a chevron print lining with an easy-to-reach internal key pocket, its design is understated yet unmistakable.

Range Rover Round Keyring - Crafted from Milled Steel, this distinctive keyring is inspired by the Range Rover rotary dial. With a Black nickel finish and debossed wordmark to the outer ring edge.

Range Rover Umbrella - Your cover for all conditions. This wind-tested Range Rover Umbrella features a Black leather handle with debossed Range Rover wordmark, spring-loaded automatic opening and polycotton canopy.

Range Rover Cufflinks - A refined set of whale-back cufflinks inspired by the Range Rover rotary dial and crafted from Milled Steel. With a Black nickel finish and debossed wordmark.

Range Rover Leather Wallet - An elegant cross-grained leather wallet in Deep Garnet with chevron print to the inner lining. Features Range Rover rotary dial detail with debossed wordmark to the inside.

Range Rover Sunglasses - Lightweight aviator-style sunglasses in Silver. Machined from a single sheet of Japanese Seta-titanium, with NXT® polarized lenses for ultimate UV protection and colour clarity. Other styles available.

IMPORTANT NOTICE: Important note on imagery & specification. We are living through exceptional times. Due to the Covid pandemic we have been prevented or delayed in the creation of new images of current model years. Now the global impact of micro chip shortages is further affecting build specifications, options and launch timings. Until this unique event settles, please note that **many images cannot be updated to 22 model year specifications.** Features, options, trim and colour schemes will differ from many images. Customers are urged to consult your local Retailer for detailed 22 model year specifications and do not base an order on marketing imagery and specification alone.

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually, and we reserve the right to change without notice. Some features may vary between optional and standard for different model years. The information, specification, engines and colours on this website are based on European specification and may vary from market to market and are subject to change without notice. Some vehicles are shown with optional equipment and retailer fit accessories that may not be available in all markets. Please contact your local retailer for local availability and prices.

COLOURS: Image colours reproduced here are provided for illustrative purposes only. Colours are reproduced on screen and may therefore vary compared to the actual finish. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation. Information and images displayed in relation to the InControl technology, including Touchscreen, App screens, or sequences are subject to regular software updates, version control and other system/visual changes depending on options selected.

Optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online. All in car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times. Certain features require an appropriate SIM with a suitable data contract, which will require a further subscription after the initial term advised by your Retailer. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

Castrol EDGE Professional exclusively recommended by Land Rover.

■ Standard.

Class A (18"-20" wheel)
Class B (21" and 22" wheels with
All Season and Summer tyres).

*The figures provided are NEDC2 calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real-world figures may differ. CO₂ and fuel economy figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment and accessories fitted. NEDC2 are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied.

**The figures provided are NEDC calculated from official manufacturer's tests. Figures may vary according to environment and driving style. For comparison purposes only. Real-world figures may differ.

[†]The figures provided are as a result of official manufacturer's tests in accordance with EU legislation. For comparison purposes only. Real-world figures may differ. CO₂ and fuel economy figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment and accessories fitted.

TECHNICAL SPECIFICATION

FUEL ECONOMY - continued

Fuel tank capacity - useable litres

Selective Catalytic Reduction Filter /

Gasoline Particulate Filter (SCR / GPF)

PERFORMANCE

Acceleration (secs) 0-100 km/h (0-60 mph)

Maximum speed km/h (mph)

BRAKES

Front type

Front diameter (mm)

Rear type

Rear diameter (mm)

Park Brake

WEIGHTS (kg)**

Unladen weight (EU)[†]

Unladen weight (DIN)^{††}

Gross Vehicle Weight (GVW)

TOWING (kg)

Unbraked trailer

Maximum towing

Maximum coupling point (nose weight)

Maximum vehicle and trailer combination

ROOF CARRYING (kg)

Maximum roof load (including cross bars)

DIMENSIONS AND CAPABILITIES

STANDARD RIDE HEIGHT

Maximum height 1.678mm (Air) 1.683mm (Coil)
 Access height air suspension setting will reduce the above by 40mm

HEADROOM

Maximum front / rear headroom with standard roof 993mm / 988mm
 Maximum front / rear headroom with panoramic roof 970mm / 966mm

LEGROOM

Maximum front legroom 1.023mm
 Maximum rear legroom 944mm

LOADSPACE CAPACITY

Height 687mm, Width 1.245mm
 Loadspace width between arches 1.050mm
 Maximum loadspace volume behind first row
 Dry* 1.374 litres, Wet** 1.811 litres
 Maximum loadspace volume behind second row
 Dry* 568 litres, Wet** 748 litres

Obstacle Clearance

Off-road height (Air) 251mm[†] (Coil) 213mm
 Standard ride height (Air) 205mm[†] (Coil) 214mm

TURNING CIRCLE

Kerb-to-kerb 11,95m
 Wall-to-wall 12,35m
 Turns lock-to-lock 2,52

WADING DEPTH

Maximum wading depth 530mm / 580mm[†]

	A	B	C
Ride Height	Approach Angle	Ramp Angle	Departure Angle
Off-road Air (Coil)	27,5° (25,0°)	23,5° (22,0°)	29,5° (27,0°)
Standard Air (Coil)	22,5° (23,6°)	18,3° (19,1°)	24,8° (25,0°)

Wheelbase 2.874mm

*Dry: Volume as measured with VDA-compliant solid blocks (200mm x 50mm x 100mm). Volume measured up to the headliner. Boot configuration and total loadspace will vary by vehicle specification (model and powertrain) and market. **Wet: Volume as measured by simulating the loadspace filled with liquid. Volume measured up to the headliner. Boot configuration and total loadspace will vary by vehicle specification (model and powertrain) and market. [†]Electronic air suspension only.

Vehicle shown is R-Dynamic HSE in Silicon Silver with optional panoramic roof, Black contrast roof, privacy glass and 22" Style 9007, 9 split-spoke, Satin Light Silver with contrast Diamond Turned finish.

Figures may vary for P400e models.
